

List of important documents for the needs of the valuation

Type of real estate:

commercial property

The list of documents necessary for valuation is determined each time after the inspection of the property and with Client in determining the scope and purpose of valuation.

The basic documents will include geodetic documents, administrative decisions, construction projects and documents specifying possible income from the title of lease / tenancy of real estate (eg lease contracts, rent-roll, etc.).

If you do not have all the documents - contact us, we will help in obtaining them.
